

Linux 系统锐捷客户端升级指南

一、 下载锐捷认证客户端

1. 打开帮助台网站 <http://helpdesk.sysu.edu.cn>，点击“下载”；

2. 找到 Ruijie Supplicant 4.90 认证客户端 Linux 版，点击立即下载；

Ruijie Supplicant 4.90 认证客户端 Linux版

锐捷交换机802.1X认证客户端软件。

适用操作系统：Linux系统。

3. 或者直接打开以下命令行进行下载；

Wget http://helpdesk.sysu.edu.cn/images/downloads/ruijietest/RG_SU_For_Linux_4_90_Setup1.zip

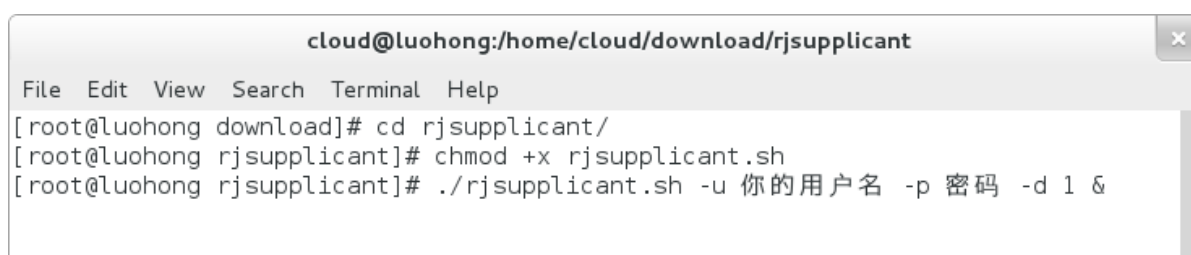

4. 把下载好的压缩档“unzip RG_SU_For_Linux_4_90_Setup1.zip”解压；

```
cloud@luohong:/home/cloud/download
File Edit View Search Terminal Help

[cloud@luohong ~]$ su
Password:
[root@luohong cloud]# cd download
[root@luohong download]# ll RG_SU_For_Linux_4_90_Setup1.zip
-rw-rw-r--. 1 cloud cloud 3293120 May 17 15:01 RG_SU_For_Linux_4_90_Setup1.zip
[root@luohong download]# unzip RG_SU_For_Linux_4_90_Setup1.zip
Archive:  RG_SU_For_Linux_4_90_Setup1.zip
  creating: rjsupplicant/
  inflating: rjsupplicant/README
  inflating: rjsupplicant/rjsupplicant.sh
  creating: rjsupplicant/x64/
  extracting: rjsupplicant/x64/fileReg.ini
  creating: rjsupplicant/x64/lib/
  inflating: rjsupplicant/x64/lib/libcrypto.so.6
  inflating: rjsupplicant/x64/lib/libpcap.so.0.9
  inflating: rjsupplicant/x64/lib/librt-2.6.so
  inflating: rjsupplicant/x64/lib/libssl.so.6
  inflating: rjsupplicant/x64/README
  inflating: rjsupplicant/x64/rjsupplicant
  inflating: rjsupplicant/x64/SuConfig.dat
  extracting: rjsupplicant/x64/systemmsg.ini
  inflating: rjsupplicant/x64/uiCHS.ini
```

5. 进入目录执行

- a) 进入解压缩后的目录 `cd rjsuppllicant`
- b) 并给脚本增加可执行权限 `chmod +x rjsuppllicant.sh`
- c) 认证 `./rjsuppllicant.sh -u your_user_name -p your_password -d 1`

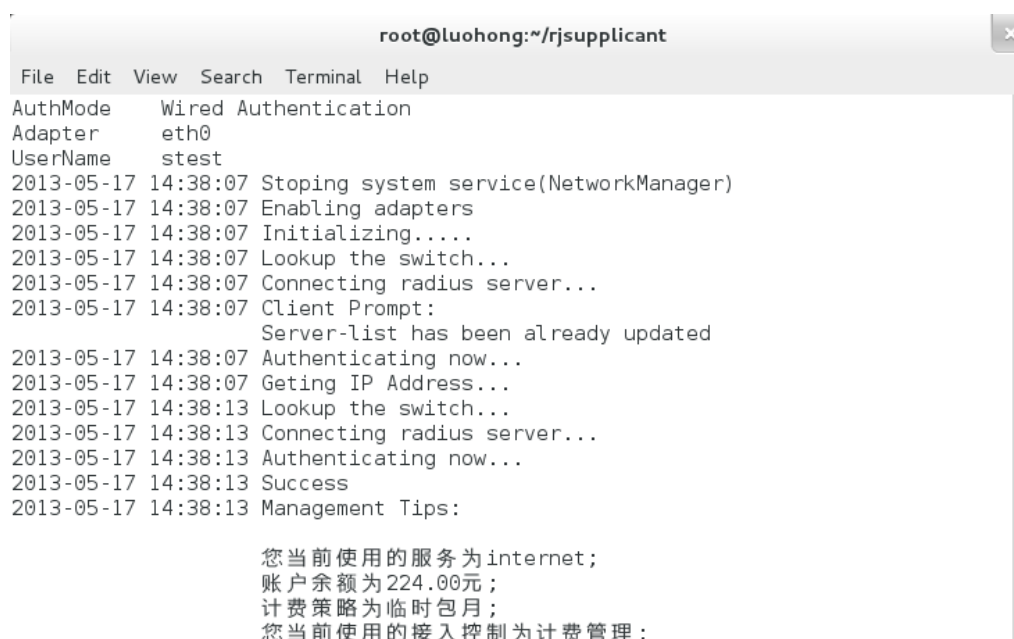

```
cloud@luohong:/home/cloud/download/rjsuppllicant
File Edit View Search Terminal Help
[root@luohong download]# cd rjsuppllicant/
[root@luohong rjsuppllicant]# chmod +x rjsuppllicant.sh
[root@luohong rjsuppllicant]# ./rjsuppllicant.sh -u 你的用户名 -p 密码 -d 1 &
```

注意:

1. **your_user_name** 是 netid, **your_password** 是密码, **-d 1** 是使用 dhcp

2. 运行本软件需要管理员权限

6. 完成以上操作后即可认证上网。

```
root@luohong:~/rjsuppllicant
